Lead Faculty

DR. DAMIAN CASTELLO

Ph.D. Clinical Support Manager
Valencia, Spain

Dr. Damia Castello is an experienced embryologist specializing in IVF and andrology techniques, including ICSI, embryo biopsy, and vitrification. He has trained professionals globally in Cryotop vitrification and advanced embryology practices. Formerly a Laboratory Director and Research Supervisor, he has contributed to innovations such as non-invasive embryo testing (Embrace) and improved cryopreservation protocols. Currently, he serves as a Clinical Support Specialist at Vitromed Iberia, providing scientific training and supporting product development.
